SUMMARY

[LinkedIn](#)

I am a B.E. Computer Science and Engineering student with a strong academic background and a growing passion for business analytics. I have hands-on experience with data analysis tools such as Excel, SQL, Python, and Power BI. Through academic projects and an internship in data science, I have developed the ability to analyze business problems, interpret data trends, and provide actionable insights. As a fresher, I am eager to begin my career as a Business Analyst, where I can apply my technical skills and problem-solving mindset to support data-driven decision-making and business growth.
